

ICT - 3D Design Project	Emerging (Em)	Developing (De)	Secure (Se)	Advanced (Ad)
<b>Attainment Target 1 (AT1)</b> Specialist Terms & Techniques	Little or no evidence of specialist terms.	Little use of specialist terms	Some technical terms used correctly	Most technical terms used correctly
<b>Attainment target 2 (AT2)</b> Knowledge & Demonstration	Produces a 3D model and spreadsheet. Uses <25% advanced skills	Produces a 3D models and spreadsheet, although not fully accurate. Uses >25% advanced skills	Produces an accurate 3D model and spreadsheet. Uses >50% advanced skills	Produces an accurate 3D model and spreadsheet. Uses >75% advanced skills
<b>Attainment target 3 (AT3)</b> Assessment & Evaluation	Makes some improvements based on feedback. Provides a limited evaluation of the project.	Makes most improvements based on feedback. Provides limited feedback to others. Provides a brief evaluation of the project.	Improves based on feedback. Provides accurate feedback to others. Provides a detailed evaluation of the project albeit with some omissions	Improves based on feedback. Can provide accurate feedback to others. Provides a full and detailed evaluation of the project.
<b>Attainment target 4 (AT4)</b> Work Ethic	Little or no evidence of independent working	Work independently some of the time.	Work independently most of the time.	Works independently and can offer assistance to others
